

News Release

Puma Biotechnology to Present at Bank of America Merrill Lynch Health Care Conference

LOS ANGELES, Calif., May 4, 2016 – Puma Biotechnology, Inc. (NYSE: PBYI), a biopharmaceutical company, announced that Alan H. Auerbach, Chairman, Chief Executive Officer, President and Founder of Puma, will provide an overview of the Company at 10:40 a.m. PDT on Wednesday, May 11, at the Bank of America Merrill Lynch 2016 Health Care Conference. The conference will be held at Encore at the Wynn in Las Vegas.

A live webcast of the presentation will be available on the Company's website at www.pumabiotechnology.com. The presentation will be archived on the website and available for 30 days.

About Puma Biotechnology

Puma Biotechnology, Inc. is a biopharmaceutical company with a focus on the development and commercialization of innovative products to enhance cancer care. The Company in-licenses the global development and commercialization rights to three drug candidates—PB272 (neratinib (oral)), PB272 (neratinib (intravenous)) and PB357. Neratinib is a potent irreversible tyrosine kinase inhibitor that blocks signal transduction through the epidermal growth factor receptors, HER1, HER2 and HER4. Currently, the Company is primarily focused on the development of the oral version of neratinib, and its most advanced drug candidates are directed at the treatment of HER2-positive breast cancer. The Company believes that neratinib has clinical application in the treatment of several other cancers as well, including non-small cell lung cancer and other tumor types that over-express or have a mutation in HER2.
